

GMP 1: INTRODUCTION TO GOOD MANUFACTURING PRACTICE (DISTANCE)

**PIC/S PE 009-14 requires regular training of all personnel on the principles of GMP.
Save time to train new and existing employees
with a distance course to minimise time out of the workplace.**

On completion of the course, employees will have knowledge of and understand

- GMP principles and concepts
 - Relationships between QA, QC and GMP
 - Audits
 - Handling documentation and keeping records
-
- **Completion:** One month after enrolment
 - **Assessment:** An outcomes based questionnaire
 - Successful learners will receive a certificate of completion

Cost: R 2500.00 per learner

Health Science Academy an accredited by the South African Pharmacy Council as a training provider
